PRODUCT SPECIFICATIONS SHEET

Accelobac® AGS

Description: Accelobac® AGS is the water soluble version of our Accelobac® AG product designed specifically for use in aquaculture. It contains special microbial cultures selected for their ability to produce large quantities of digestive enzymes in an aquatic environment. The supplemented enzymes are quickly used and performance depends on subsequent production by the bacteria in ACCELOBAC® AGS. Designed to liquefy and digest organic materials that accumulate in farmed aquaculture ponds. This product is standardized on a carrier of maltodextrin.

Usage Rates:

AREA	DOSAGE	TREATMENT
Grease Traps	4 oz. each 5 gal. capacity	First Week
Laundry Drains	4 oz. with water	Twice weekly
Kitchen Drains	4 oz. with water	Twice weekly
