PRODUCT SPECIFICATIONS SHEET

Bacillus subtilis Viable Spore Concentrate

Description: A highly stable and concentrated powder on a maltodextrin carrier, this material has an off white to tan appearance with little to no odor. This strain of *Bacillus subtilis* is a strong producer of bacterial protease and lipase. This material is considered a GRAS animal feed ingredient and supplementation of this product into animal feed applications may be desirable where hydrolytic enzyme activity is desired. It is also acceptable and functional for waste water treatment applications.

Storage Conditions: For optimal activity store in cool dry place under 100°F (37°C). Standard shelf life under these conditions is 2 years.

Danger: May cause allergy or asthma or breathing difficulties if inhaled. Avoid breathing dust/fume/gas/mist/vapors/spray. In case of inadequate ventilation, wear respiratory protection. Consult safety data sheet before handling and storing this product.

Packaging: Product is double bagged in double walled 12x12x15 boxes containing 50lbs./25Kg

Summary: A quality source of high concentrations of fungal enzymes beneficial at acidic and neutral pH levels up to 60°C.
