PRODUCT SPECIFICATIONS SHEET

COMBO® Enzyme Blend

Description: A water dispersible high power blend of seven specially selected digestive enzymes for animal feed capable of providing a number of important economic and health benefits in a concentrated and easy to use powder form.

Recommended Usage Rates: Designed to provide improved energy and amino acid digestibility of soybean meal, corn, wheat, barley, and fats. Poultry layers – 500 grams per metric ton of finished feed starting at first egg laying. Poultry broilers 500 grams per metric ton of finished feed starting at first solid feed.

Storage Conditions: For optimal activity store in cool dry place under 100°F (37°C). Standard shelf life under these conditions is 2 years.

Danger: May cause allergy or asthma or breathing difficulties if inhaled. Avoid breathing dust/fume/gas/mist/vapors/spray. In case of inadequate ventilation, wear respiratory protection. Consult safety data sheet before handling and storing this product.

Packaging: Product is double bagged in double walled 12x12x15 boxes containing 50lbs./25Kg or 1,000 Kg. and 2,000 lb. bulk bags

Many of these enzymes will survive processing at elevated temperatures. Care should be used to insure that a minimum of steam is used and that temperatures are no greater than that necessary to achieve desired results. Addition of soluble calcium will help improve the temperature stability of this product.
