PRODUCT SPECIFICATIONS SHEET

SUPER B SUB

Bacillus subtilis Fermentation product

Description: SUPER B. SUB is a special *Bacillus subtilis* fermentation product designed to provide guaranteed microbial plate count for animal feed applications. SUPER B.SUB is useful when preparing products where a heat stable microbial is required, such as pelleting. SUPER B.SUB can be mixed with other DFM (Direct-fed Microbial) ingredients or used as a stand-alone ingredient as suggested in the recommended usage.

Recommended usage levels:

Dairy: Calculate feeding rate to give 3 grams per head per day starting 30 days before freshening and continuing throughout the lactation cycle. For calves, feed 1 gram/head/day starting at first solid feed. For non-lactating dairy cattle, feed 2 grams/head/day.

Beef: Feed 2 grams/head/day. For calves feed 1 gram/head/day.

Swine: Feed 1-3 lbs/ton (.5-1.5 Kgs./MT) of finished feed to all classes starting at first solid feed.

Poultry: Layers-Feed 1-3 lbs/ton (.5-1.5 Kgs./MT) of finished feed starting at first egg laying. Broilers- 2-3 lbs/ton (1Kg./MT) of finished feed starting at first solid feed.

Package Sizes: 25 kg. and 50 lb. multi-walled bag or boxes.

Storage Conditions: Store in a cool, dry place. Consult Safety Data Sheet for specific handling recommendations.

Please contact us for more detailed product specifications.

This feed is produced in a facility certified in the AFIA's Safe Feed/Safe Food Certification Program
